Customer Support Program

- Launching Summer 2021

Additional Resources Under Development

Rulemaking Comments Submitted for Support Requests

- Developing EUI targets for multi-use buildings
- Commissioning
- Compliance personnel roles and qualifications
- Trainings for facility managers (hospitals, schools and various industries)
- Emphasize and itemize energy efficiency trainings for building occupants
- Resources needed – calculators, templates, online tools, connecting to financing
- Sub metering
- Create a one-page diagram outlining the state's process of implementing the Clean Buildings Standard, a flow chart, which highlights what happens when and how.
- Target assistance in ways that will help more disadvantaged building owners and communities understand how and when to comply with this law
- Section 4 and Admin procedures
